**ITHUBA:** zulujska beseda za priložnost

**Ithuba** je ime šol, ki so jih v revnih predelih Južnoafriške republike zgradili avstrijski, nemški, slovenski in švicarski študenti in mentorji v sodelovanju z lokalnimi prebivalci: 'Ithuba Community College' je bila zgrajena med leti 2007-13 v barakarskem predmestju Johannesburga, od leta 2010 pa se gradi podružnica ob Indijskem oceanu. Obe šoli obiskujejo otroci, ki odraščajo v revščini in pomanjkanju, brez pravih možnosti za poklic in dostojno življenje v prihodnosti.

**Ithuba** je hkrati smoter vseh socialnih projektov – gradnje šol in drugih družbenih stavb, ki jih v Afriki gradijo fundacija S<sup>2</sup>ARCH, evropske arhitekturne šole in kolektiv buildCollective. Projekti so, globalno gledano, majhen doprinos k uresničevanju ciljev Milenijske deklaracije OZN, a velikega pomena za prihodnost nekaj sto afriških otrok.

**ITHUBA:** a Zulu word for opportunity

*Ithuba is a name of the schools built in poor areas of South Africa by Austrian, German, Slovene and Swiss students of architecture in cooperation with local people: 'Ithuba Community College' in the townships of Johannesburg (2007-13) and its subsidiary on Indian Ocean (from 2010 on). Both schools are intended for children who grow up in poverty and scarcity with small chances for a decent life in the future.*

*Ithuba is also an aim of social projects – construction of schools, community centers – of S<sup>2</sup>ARCH foundation, European schools of architecture and architectural team buildCollective in Africa. The projects are, globally speaking, a small contribution to achieving the goals of the UN Millennium Declaration, but of great importance for the future of some hundreds of African children.*
